

Leading the change!

Employees from Khopoli started unique green initiative “Walker’s Club”. Members of these clubs walks around 2.4 km daily for office journey from colony to the powerhouse.

Earlier 2 litres of petrol was consumed for the daily office trip, 2 litres of petrol was consumed by using personal car which summed up to 6 litres for the three of them. This initiative which has been ongoing for a month has saved around 192 litres of petrol and 200kg of CO2 till date.

Good going!

Benefits:

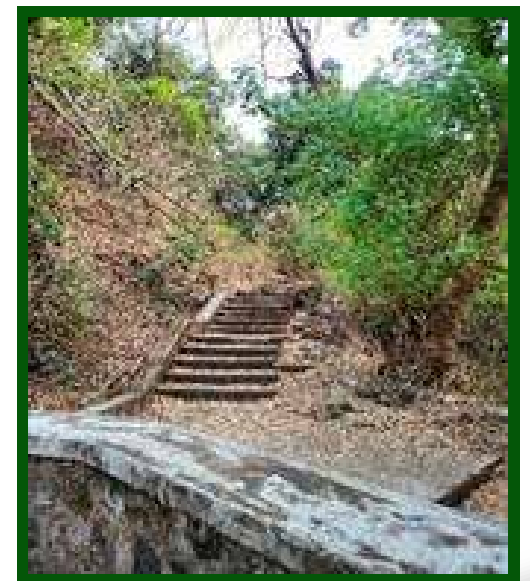

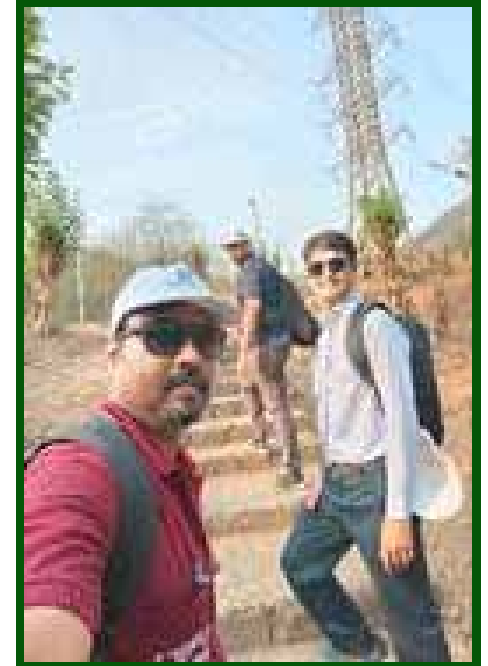

Fuel saving

Health benefits

Carbon footprint reduction

Green heroes:

Manoj Karale, Pathubha Kamariya and Sandeep D Kulkarni

Rescuing Turtle!

Mr. Maruthi M V and Mr. Amitava Samanta from 70MW NTPC Kayamkulam site rescued a turtle from material stored area and released it in its natural habitat.

Good work!

Benefits:

In their search for food, water, mates, and nesting sites, turtle or tortoises trample vegetation and create permanent trails, which generate heterogeneity in plant communities.

Green heroes:

Maruthi M V and Amitava Samanta

Rescuing Parakeet!

A rose ringed parakeet got trapped in the boiler structure of Trombay plant. As the location was not accessible for rescue, HODs of Operation and Civil arranged a man lifer and with all safety PPE and safety procedure, civil team rescued the bird.

Kudos to team Trombay!

Benefits:

The parakeet plays an important role in its habitat by helping to propagate the forest. Because not all of the seeds consumed are digested, many are passed in the bird's guano over new areas of the forest.

Pravin Raut, Milind Karmarkar, Vijay Kotalgi, Appa Suryawanshi, Edla Balraju and Vasant

Using scrap for making safety stand and grill!

Team TPSSL made safety stand and grill for fixing unsafe conditions at site. They used scrap material for this initiative and saved some amount of cost.

Good going!

Benefits:

Approx. 250 kg of metal waste reused amount of 1500 Rs saved

Green heroes:

Hanumantharayappa, Lokesh and Prince

Efforts towards Green and Sustainable lifestyle!

Maharajan G from IEL-Kalinganagar has made changes in his lifestyle using eco-friendly products and adopting best practices for waste minimisation

For eg.

1. Using home-made bio enzyme as cleaning liquid, natural detergent for washing clothes, coconut husk for washing utensils, cloth bag for shopping
2. Reducing micro plastic waste at his home
3. Using waste like Peanut shells, eggshells as fertiliser
4. Using waste water after washing pulses/rice for plants.

Kudos to our green hero!

Benefits:

1. Reduction in carbon footprints, waste management and resources savings

Bio Enzyme

Micro Plastic Waste Management
