Go Digital , Go green Dynamic way!

Distribution GIS team has launched mobility based “Dynamic Forms” system which enables creation of digital data collection media for checklist/survey list/inspection lists/ work completion report etc. as per user requirement, without dependency of developer/new-coding and as such cost effectively. The system has recently crossed the milestone of 50K paperless records creation. The system is used by cross section of T&D functions such as Distribution-Commercial, Distribution zones, Customer relations, Transmission Projects, ES&A and many more.

Kudos to green heroes!

Benefits:

1. Enabling single, quality and paperless data entry.
2. Help in properly monitor and analyses the field activities and data
3. GIS enabled system for ease while moving in the field
4. Dynamic nature and user friendly features of system is resulting into growing of user base. Till today 65+ field activities are using the Dynamic Forms system.

“Gift a ceramic pot with flower seeds” - Green initiative at Backbay!

Team Backbay have launched the initiative of “Gifting a ceramic pot with flower seeds” instead of bouquet.

The package consists of 40 flower seeds of Aster, Vinca, Marigold, Morning Glory, Portulaca, Pansy, Dianthus and also include the instructions of how to plant these seeds.

Note: Teams interested in getting them may connect with Ruchi Chaurasia or Zubin Vakil.

Benefits:

Gifting a plant to someone shows them that you care about their health. Moreover, we live in an era where we mostly stay inside offices or houses, plants help one stay in touch with nature

Green heroes :
Ruchi Chaurasia and Zubin Vakil

Green Safety Park!

Team of Waghivali along with M/s. GE T & D developed a small "Green Safety Park" at NMIA Waghivali construction site.

This platform is extensively used for R & R and other site communication activities.

Kudos to the small step towards environment conservation!
