

Saving energy!!

Mr. Sadananda Samanta from EMD, IEL-PH#6 used 20 Watt LED bulb in place of 70 Watt HPSV lamp in existing fixtures.

Good work!

Benefits:

1. Reduction in inventory.
2. Avoiding short circuit in LED lamp fittings.
3. Auxiliary power saving in lighting circuit.

Energy saving / fitting / year- 6570 KWH

Mr. Sadananda Samanta**

Reusing scrap to make plant pots!

Team CGPL reused scrap rollers, oil drum and end caps of pipe to make pots for saplings of decorative flower plants at Coal handling plant.

Good work!

Benefits:

1. Reduce in scrap
2. Container gardening reduces the risk of soil-borne diseases, virtually eliminates weed problems, and gives gardeners more control over moisture, temperature, and sunlight.

Team Dharavi helps to rescue a bird!

Mr. K P Salunke and Mr. Bhavik Sureja from Dharavi receiving station found a Black Kite near meter testing lab. The bird was not able to fly and hence was in danger of crow attack. They took the bird to the bird hospital for further treatment.

Great work!

Benefits:

Birds of prey help to balance the size of these populations. Scientists monitor raptor populations carefully. An increase in the number of raptors within an ecosystem is an indicator that a species population is too high.

**Green Heroes:
Mr. K P Salunke and Mr. Bhavik Sureja**

Digitalisation of monthly service reports!

Team Trombay started making digital reports for A.C. Chiller plant Monthly Service. This has helped to save 500 papers annually.

Great work!

Benefits:

1. Saving of 500 A4 papers
2. Cost and time saving
3. Saving of trees
4. Reduction in man-hours
5. Reduced Storage Space, Improved Regulatory Compliance, Better Collaboration, Better Backup and Disaster Recovery,
6. Electronic documents can be made searchable
