

## Green initiative at Parel receiving station!

The Parel team upcycled scrap material into a 5 step stand. The stand is now being used at Parel receiving station for breaker operating.

**Good work!**

### Benefits:

- 1.25 tons of scrap was reutilised
- Increase in safety

### Green heroes:

Robert Rodrigues, Shreeram Ramesh, Manohar Shirke and Bhargav Pedilkar

## Common Krait rescue at IEL!

Team IEL with the help of a certified snake rescuer from Tata Steel (JUSCO division) rescued a common krait snake from the canteen area. Standard precautions were taken and proper devices were used for catching the snake which was later released in the wild habitat.

**Kudos to green heroes!**

### Benefits:

As predators, snakes help keep the prey population in check. For example, rodents will reproduce exponentially in the absence of predators, as long as there is plenty of food available. People mostly try to control these pests with chemicals which end up polluting the environment. Snakes provide an easy, environmental friendly and natural pest control service.

### Green heroes:

Prem Prakash, Bijay Barik, Jabda Pradhan and Babula Patra

## Team Haldia saves tree after Amphan!

As a part of Sustainability initiative and to conserve garden, team Haldia strengthened the fallen trees by making structure by using the scrap materials. During Amphan, most of trees had fallen down in Haldia. This structure will help to protect the tree from fall during high wind flow.

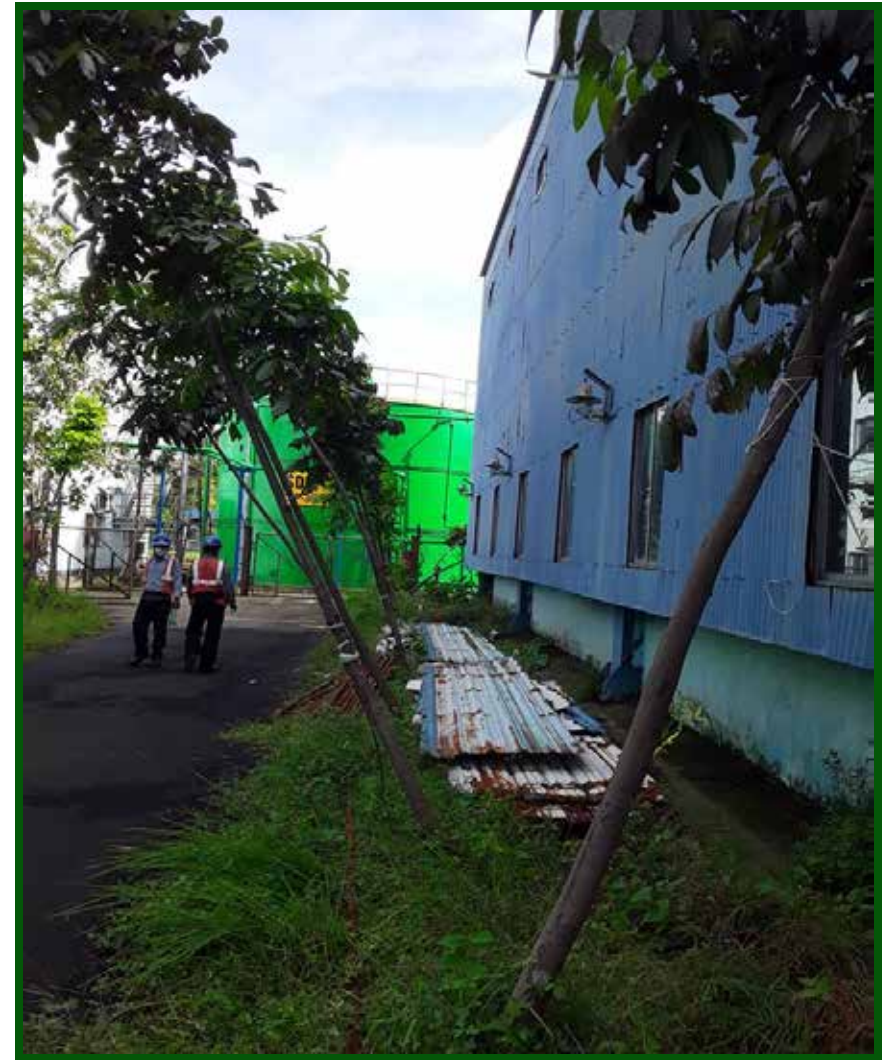

**Great work!**

### Benefits:

Living in an area with more green space has been proven to lower levels of the stress. Spending more time in natural environments promotes psychological restoration, improves mood and attention and reduces stress and anxiety.

### Green heroes:

Sukhendu Maity, Nikhil Bera, Manas Hazra, Susanta Das, Amal Samanta, Barun Mandal and Anoop Samanta

## Team Civil develops landscape garden using bottom ash!

Civil team converted scrap yard plot of around 1000 sq. ft. into a beautiful landscape garden at Trombay. It has been developed using waste materials - 600 MT of bottom ash and old RCC cable warning tiles. The garden was inaugurated by Chief Trombay, Mr. Anil Jain on 29<sup>th</sup> Dec 2020. The aim of this green initiative is to use bottom ash and increase green space within the plant premises. The team has planted different varieties of plants and trees which has enhanced the natural beauty.

**Kudos to our green warriors!**

### Benefits:

- Bottom ash reuse
- Improvement in the air quality by filtering harmful dust particles and pollutants
- Empowering employees to enhance their knowledge of environment, plants and social skills
- Increase participation through green volunteering
- Cost saving of Rs. 4.80 Lakh in lieu of bottom ash disposal cost

### Green heroes:

Yogesh Nawale, Uttam Pawaskar, Sambrit Chakraborty, Erappa Gowda and B J Talwar.

## Tree plantation drive at ash pond of MPL!

MPL Coal Logistics team in collaboration with M/s AKA Logistics Pvt. Ltd and M/s Om Sharda Pvt. Ltd. has planted 150 saplings in the Ash pond embankment.

During tree plantation program, Head - Coal logistics Mr. Tarun Chattopadhyay greeted the Sr. leadership which includes CEO-MPL – Mr. Ramesh Jha, Chief O&M – Mr. Ashok Panda, Chief (O&M)- Services Mr. SH Pandey and Head operations – Mr. Biplob Chatterjee.
