

Rescuing an Owl!

Mr. Satish Mohite and Mr. Santosh Ovhal from Khopoli division, rescued an owl which got injured due to fall near the Khopoli canteen. The bird was provided with food & water after which it gained strength and flew to its natural habitat.

Great work!

Benefits:

When we conserve and protect wildlife species, we enrich our planet.

Innovative technique used for relocating trees at MPL!

To accommodate the FGD & NOx project at MPL, land was required for developing material handling plant and absorption system. In the identified area "life of 200 Nos. of grown up trees were at stake". MPL team decided to relocate these trees. While reallocating utmost care was taken so that trees would not be damaged.

Techniques used for relocating the trees " Coppicing and Pollarding "

Team started shifting the trees one by one with the start of monsoon season which was favorable for the trees. After relocation, the trees have started growing new shoots and leaves.

Kudos to the green heroes!
