

## Using digital media for shift reporting!

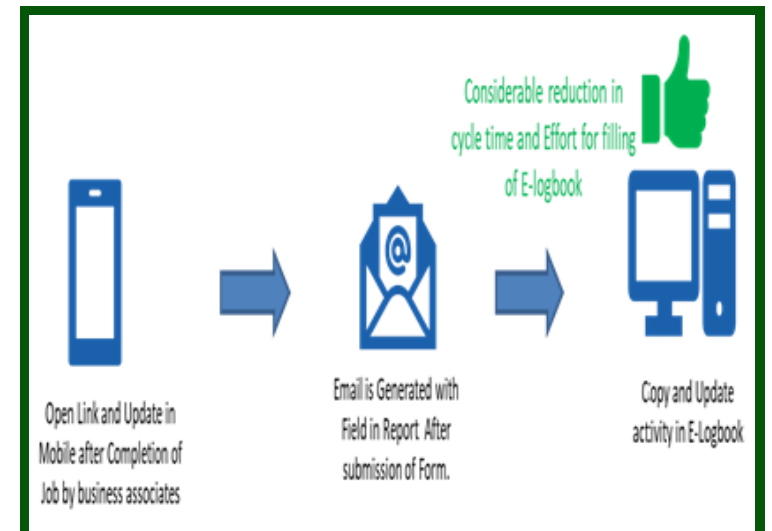

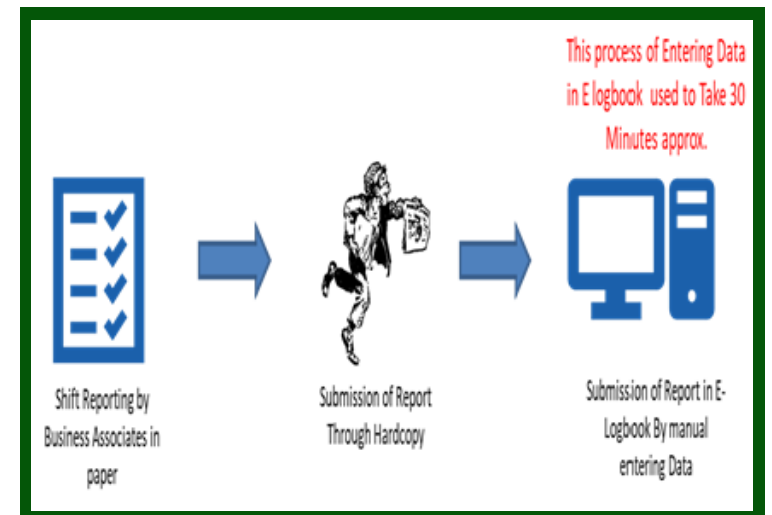

Jojobera Team MMD incorporated shift reporting by business associates through Digital media. Business Associates open a link in their Mobile, enter the inputs and submit the report at shift end. Post submission a mail is generated to Tata Power Shift personnel. The shift personnel further enters the report in E-Log Book. The process is completely paperless and saves great amount of time.

**Great work!**

### Benefits:

Minimum 20 papers are saved on daily basis which were earlier used to write shift report.

**Green hero:**  
Debasish Das

## Plant beautification @Jojobera!

Jojobera - MMD team made various sculpture items using scrap material like pipes, tubes plate. Team fabricated sculpture like crane, deer, fish, coffee cup and ice cream. Total 1100 kg scrap material was used from scrap yard. It has led to beautification inside the plant area.

**Great work!**

### Benefits:

1. Reducing scrap
2. Cost saving
3. 5S implementation

### Green heroes:

Parvin Kumar, SHV Ganesh, Shyamal Kumar and Team MMD

## Rescue of palm civet!

Mr. Laxman Kate, security guard from Lonavala sluice gate, spotted a palm civet (local name - Udmanjar) laying near Lonavla helipad in injured condition and informed security supervisor. Security supervisor Mr. Satish Sagar called forest department and local animal activist group Shivdurga for help and rescued the injured animal.

Shivdurga team shifted the palm civet to animal hospital at Pune in the presence of forest official.

**Great work!**

### Benefits:

Asian palm civets eat berries and pulpy fruits as a major food source and thus help to maintain tropical forest ecosystems via seed dispersal.

**Green heroes:**  
Laxman Kate and Satish Sagar

## Using scrap material @Mainthon FGD!

Team MPL FGD has utilised scrap roller of conveyor belt for movement of winch rope to reduce wear and tear instead of conventional wooden support.

**Great work!**

### Benefits:

- Recycling scrap reduces greenhouse emissions
- Prevents use of wooden material which is an environmentally friendly step
- Material need not to be replaced every year
- Cost saving and better housekeeping

### Green heroes:
