

Digital and smart card for business meetings!

DNMG North Zone has started use of digital and smart business card (Strag Card) for the new business meetings, customer meetings, professional site visits etc. to share the contact details. This card is a re-programmable business card and can instantly share social media networks, contact information, payment information and web links with a simple tap to whomever we want to share our contact information, where the other person doesn't need any app to receive your information and add you to their contacts.

Good going!

Benefits:

1. Cost Saving
2. Paper Saving
3. Reduction in Carbon footprints in environment
4. Real time Profile Sharing
5. Fastest way of networking

Green heroes:

Krunal Mali, Rohit Bamgude, Sagar Jolli, Amit Dalvi and P P Tendulkar

Bird rescue at CGPL!

Mr. Rakesh Bhut from CGPL helped the injured bird in the stores area. After giving some first aid, bird was rescued in its habitat.

Great work!

Benefits:

Birds are carnivores in the food chain and help in keeping the population of rodents and insects in check by hunting them for their food.

Green hero:
Rakesh Bhut

Rooftop gardening!

Mr. Saybrat Barik from IEL Kalinganagar and his spouse Ms. Sulagna Barik reused old plastic bottles for planting flower saplings. They created a small rooftop garden at their house.

Kudos to our green parivar!

Benefits:

1. Recycling of waste
2. Rooftop gardens can also lead to less and more effective use of energy. They provide great insulation, retaining heat in winter and keeping temperatures cool in summer. This translates into less air conditioning systems being put to work in summer and less heating used in winter, hence the conservation of energy and subsequently money.

Green heroes:
Satyabrat Barik and Sulagna Barik

Bird feeders using waste material!

Mr. Ramesh Patra from IEL Kalinganagar old metallic vegetable pot for making the bird feeder.

Good work!

Benefits:
Reducing waste

Green hero:
Ramesh Patra

Tree Mittra from O&M Bareilly!

January is the gateway to new year and is most often welcomed through a celebration of great merriment and mirth. Therefore O&M Bareilly team decided to plant the trees as Green January 2021. They planted 10 fruit bearing tree saplings in Powerlinks, Bareilly campus.

Kudos to team Bareilly

Benefits:

Trees helps in absorbing odors and pollutant gases such as sulfur dioxide, ozone, nitrogen oxides etc and provide us with fresh air. They offer the most important thing that is fresh air which is the basic need for human to survive.

Green heroes:

Sunil Kumar, Parminder Singh, Nawal Kumar, Utpal Das and Umesh Das .
