

Rescue of Black Kite!

Mr. Abbas and Mr. Shivraj Subedi from Salsette Receiving Station rescued an injured black kite. After providing some first aid the Kite was handed over to RAWW (a non-governmental organization (NGO) based in Mumbai working towards human-wildlife conflict mitigation and promoting urban wildlife) for further treatment.

Well done green heroes!

Benefits:

The presence of raptors in the wild serves as a barometer of ecological health. Birds of prey are predators at the top of the food chain; because threats like pesticides, habitat loss, and climate change have the most dramatic impact on top predators, we refer to them as indicator species.

Green heroes:
Abbas and Shivraj Subedi

Plantation to improve aesthetic value of workplace!

Saki Transmission team have planted 60 flower and Palm tree saplings in the premises. They have planted flower saplings such as Tugger, kaner and Jaswand which improves aesthetic look and ambience of the premises.

Good work!

Benefits:

Well-placed trees can reduce summer energy bills by 30 percent by providing shade. It reduces carbon footprint by reducing energy usage, and also improves local water quality as well as providing habitat.

Koel Rescue!

Mr. Santosh Kharade and Mr. Santosh Ovhal from Khopoli division rescued a female koel from Khopoli old power house which got trapped inside the battery room. The bird was provided with food and water and after gaining strength it flew back to its natural habitat.

Great work!

Benefits:

When we conserve and protect wildlife species, we enrich our planet.

Green heroes:

Mr. Santosh Kharade & Mr. Santosh Ovhal.

86 year old green hero!

Mr. Hussain Khan (Age 86), father of Feroz Khan from Saki substation planted the Jamun tree on the occasion of Iday. He is an ex-employee of Tata Power and retired from Ambernath receiving station in 1994.

Kudos to our green hero!

Benefits:

Trees are vital. As the biggest plants on the planet, they give us oxygen, store carbon, stabilise the soil and give life to the world's wildlife.

Green hero:

Hussain Khan.

Afforestation efforts by junior green heroes!

Mithun Jishnu Maharajan and Yaashika Maharajan, children of G Maharajan from Kalinganagar planted saplings of custard apple in this rainy season. They regularly take care of the plants.

Kudos to our junior green heroes!

Benefits:

Millions of children are already impacted by climate change so there`s really never been a better time to teach kids that they can help make the world a better place. If children are going to make a lifelong commitment to protect the environment for themselves and future generations, they first need time to explore the wonders of nature.

Green heroes:

Mithun Jishnu Maharajan &
Yaashika Maharajan
