

Environment Day Celebration at Powerlinks, Bareilly!

Team Powerlink celebrated the Environment day on 5th June 2019 on the theme of Beat Air Pollution. They planted fruit bearing trees near the office premises.

Great work!

Benefits:

Trees are able to clean the air and absorb harmful airborne particles and gaseous pollutants such as nitrogen oxides, ammonia and sulphur dioxide through their leaves, bark and roots.

Green Heroes :

Mr Sunil Kumar, Mr. Parminder Singh, Mr. Utpal Das and Mr. Niranjn Sarkar.

Rescue of Coppersmith Barbet!

Mr. Binoy Joseph from Carnac rescued a coppersmith barbet from the attack of crows. He gave bird water with the help of Mr. Kisan Sawant and looked after the bird till he regained health.

Good work!

Benefits:

Frugivorous birds like Coppersmith Barbet play a key role in seed dispersal and establishment of a range of plant species.

Green Heroes :

Mr. Binoy Joseph and Mr. Kisan Sawant

Reusing scrap to save water!

Team Distribution used waste Bottles and cans to store the waste water from AC at Vikhroli Porta cabin (Revenue Assurance Department). Collected water is being used for plants.

Good work!

Benefits:

1. Saving of water
2. Reuse of scrap

Green Heroes :

Mr. Zia Usmani, Mr. Mayuresh Gangal and Mr. Sarnath Naidu

Rescue of Brown headed barbet!

Mr. Vijay Desai and Mr. Amarjeet Singh from Bhivpuri found a Brown headed barbet lying on the road side. The bird had collapsed due to heat stroke. Mr. Desai and Mr. Singh took the bird to nearest security post and gave him some water. After recovery, bird was released in the wild habitat.

Great work team Bhivpuri!

Benefits:

Frugivorous birds like Brown headed barbet play a key role in seed dispersal and establishment of a range of plant species

Green Heroes :

Mr. Vijay Desai and Mr. Amarjeet Singh

Plastic Waste collection drive at 245KV GIS Versova site!

Team 245KV GIS Versova site organised Plastic waste collection drive on the occasion of World Environment Day.

Kudos to Green Heroes!

Note:

Researchers estimate that approximately 5 to 13 million tons of plastic end up in the oceans every year. Plastics make up a huge amount of solid waste and take centuries to break down in landfill or the ocean. Therefore, all recyclable plastics should be recycled to reduce landfall, conserve energy and conserve the environment.

Benefits:

1. Awareness about plastic pollution
2. Reducing and Recycling of Plastic

Green Heroes :

Mr. Ashish Japtiwale, Mr. Kedar Pendse, Mr. Naval Mishra, Mr. Shailendra Kumar, Mr. Pankaj Shende, Mr. Premchand, Mr. Vikas Jha and site team.
