### **Digitalization of LDC Load Restriction Register!**

As a part of digitalization initiative in Jojobera, Mr. Mohammed Ali -Operation Department ideated digitalizing the "LDC Load Restriction Register" which was earlier maintained in hard copy. Earlier the Shift in-charge used to fill the LDC Load Restriction Register manually.

Now, MS Excel sheet has been created in OneDrive and the data filling is done directly in this sheet. The access has been shared with all the members of the team, so that individual Unit CRE (Control Room Engineer) can update the sheet as and when he receives the Load change request.

Good work!

#### **Benefits:**

1. Digitalization of LDC Load Restriction Register which leads to saving in paper. Roughly 5 books used to be consumed in a year for filling the data.

2. Data tracking and analysing made easy.

## Best out of waste to make flower vase at home!

We generally dispose empty sauce glass bottles and plastic jars after use. Mr. Amit Bhoi- Jojobera Operations thought otherwise and reused them in the best possible way. Using acrylic colours and craft material he converted bottles into flower vase and used them for plantation in the balcony.
