

## Planting a sapling for greater future!

Mr. Biju K from Tata Power Solar has developed an organic vegetable garden at his home.

**Great work!**

Gardening is inherently eco-friendly, more so if you are growing vegetables without using any type of chemical. Growing food organically means sparing the earth of water, soil, and air pollution. Since you are buying less produce from the supermarket, you are not contributing to the use of fossil fuel from transporting fruits and vegetables to your local grocery. If you are growing crops without using pesticides or herbicides, toxic chemicals won't seep into the soil and waterways. You can enjoy the earth's bounty without harming the environment.

A TATA POWER initiative

Powering A Greener World

## Moving towards sustainable solutions!

“Mr. Kajal Singh, Head - Finance & Accounts, MPL has purchased an EV vehicle “Tata Nexon EV”, in order to reaffirm personal and professional commitment towards sustenance of environment and climate. His decision primarily based on scientific data’s which repeatedly affirms that driving on electricity produces significantly fewer emissions than using gasoline, “No Fuel, No Emission”. It will really contribute in reducing carbon footprint, and motivate others to follow the same, and secure future of all”

Mr. Kajal Singh, shared that Tata Power’s consistent focus on Innovation, Technology and Sustainability has deep impact on me. "I was thrilled by this technology and its potential impact on the environment. My small step towards enabling our environment matters a lot to me."

## Tree Mitra @ CGPL!

Team Procurement- CGPL participated in the Tree Mitra 2020 drive and planted tree saplings around stores. Conocarpus plant was selected for the plantation as it is evergreen and suitable for arid zone with high survival rate in sodic soil. Mr. H B K Patnaik, Chief - O&M (Services), Mr. Pradeep Ghosal Head - Environment, CR & Sustainability, Mr. Aseemkumar Joshi, Head Procurement and stores along with the team members of Procurement Team, volunteered their services.

**Kudos to green heroes!**
