## Bird feeders using scrap!

Green heroes from DMS – MMS WREL made bird feeders using scrap tin containers from canteen.

**Great work!**

Birds need water just as much as they need food. In the same way we use water in a variety of ways, so do birds. Beyond quenching their thirst and rehydrating, water helps birds preen, clean their feathers and even remove parasites.

**Green heroes:**

Dharmesh Rathod and Tinabhai Thakor

## Turtle rescue at Kalinganagar!

Girija Prasad Thatoi from Kalinganagar rescued an Indian flapshell turtle on the road near DG plant. With the help of his colleagues, he released the turtle in the nearby freshwater pond.

**Great work!**

### Benefits:

Freshwater turtles are known for their ecosystem services like keeping rivers, ponds and freshwater sources clean by eating algal blooms and scavenging on dead matter. Freshwater turtles play an important role in being predators as well as the prey.

### Green heroes:
