Green Resolve!

A new year has just begun! If you're among those who have not made a New Year resolution yet, there's still time! It is never too late to do a good deed, they say! Greenolution is presenting to you an opportunity to declare your Green Resolve! It is simple! This New Year, take it upon yourself to resolve to do any one (or more!) green activities and continue to do it over an extended period of time. You could resolve to, say, not litter or ensure you check all electrical appliances are switched off from the mains when not in use, and continue to practice that over an extended period. Once you tell us your Green Resolve, we'll help you accomplish it with regular follow-ups and monitor your progress. Cool prizes await our winners!

Last month, we asked our employees to share with us their top 5 anti-pollution ideas! Here's what we got:

1. Mr. Madan Bodhak from our Naraj Marthapur division:

- a. Using mosquito net instead of mosquito repellent
- b. Drinking water in a stainless steel glass/bottle instead of from a plastic bottle
- c. Walking to nearby locations instead of using personal vehicle, public transport to other places and carpooling to work
- d. Carrying meals to office in a steel tiffin box and completely avoid using polythenes

2. Mr. Sanket V. Kulkarni, Tata Power SED:

- a. Opting for public transport instead of personal vehicle
- b. Using cloth bags rather than plastic bags for carrying material whenever required.
- c. Reading news through e-paper rather than hard copy
- d. Pre adjusting the flow of geyser or shower, preventing wastage of water
- e. Keeping the lights off and using natural light during day time in office
- f. Using recycled paper note-pads, for day to day office notations
- g. Using e-banking for banking transaction rather than paper oriented banking practices
- h. Using of low consumption electrical appliances whichever possible

**3. Mr. Tushar Shingate, Trombay:**

- a. Avoiding honking while driving
- b. Reusing recycled paper for daily office tasks
- c. Segregating waste at home
- d. Picking public transport over personal vehicle
- e. Switching off electronics from the mains
- f. Paying utility bills online instead of going to the payment centre
- g. Saving paper by opting for e-statement

4. Mr. Gopal Barnwal, TPCDT:

- a. Planting a sapling at home
- b. Using cloth bags for vegetable shopping instead of polythenes
- c. Walking distances instead of using personal vehicle
- d. Accomplished a task using WhatsApp instead of physically travelling some distance for the same
- e. Planned and conducted programmes for school students in the project area on Energy Conservation Day

5. Mr. Neeraj Srivastava, Noida

- a. Using eco-friendly and public mode of transport to travel to Shatabdi Bhawan from Mayur Vihar

It is never too late to do an anti-pollution task! Have you done some too? Share details with us and your photo to **greenolution@tatapower.com**!
