#WorldSparrowDay

World Sparrow Day is celebrated on 20th March to raise awareness of the House Sparrow and the other common birds around urban area. Spotting a sparrow in the cities these days have become very difficult. Reducing urban nesting spaces, rampant construction, increase in a population of invasive bird like a Rock Pigeon are a few reasons why there has been a drastic reduction in the population of the chirping bird, pushing it almost to the verge of extinction.

On this occasion, we asked our employees to keep water for urban birds and share photos with us.

Trombay CLP (Mr. Rajan Kaushik, Mr. Yogesh Lokare, Mr. Philips Noronha and Mr. Y M Ghadge)

It is seen that sparrow population in the metropolitan cities like Mumbai is decreasing very rapidly. Contrary to this belief a large flock of sparrows is a very common sight at Trombay Coal Jetty. Tireless efforts for attracting sparrows by Trombay Coal Logistics and Plant has resulted in such a beautiful sight. A sparrow house was made by Team Trombay CLP of scrap material to provide shelter for sparrows.

1. Yashwini Ramesh (Tata Power Solar Systems)

During summer, we make sure to keep some water in our Garden for the birds.

4. Mr. Jitendrakumar Patel of Operations Department, CGPL

He took an initiative to lend a hand to the sparrows. He along with his friends distributed about 500 sparrow nests in the CGPL Aashiyana township to all the residents. Onset of summer is the breeding season for sparrows and this happens to be just the right time to set up the nests. The sparrows have already started

GREEN QUIZ

Quiz
