## World Sparrow day

It is believed that sparrow population in the metropolitan cities like Mumbai has been decreasing very rapidly. Contrary to this belief a large flock of sparrows is a very common sight at Trombay Coal Jetty. Tireless efforts for attracting and rearing sparrows by Philip Noronha and Mr. Yashwant Ghadge (now superannuated) of Trombay CLP since last 3-4 years has resulted in such a beautiful sight. The initiative is enthusiastically continued by M/s Rajan Kaushik, Head-Trombay CLP, Yogesh Lokare and Lalit Neve. A sparrow house was made of scrap material to provide shelter for sparrows and protect them from the predators. Contract workmen too are doing their bit in this green task of protecting and rearing sparrows. Congratulations to Team Trombay for such a marvelous effort.

## World Wetland Day

As a part of volunteering program employees participated in cleanliness drive of wetlands & beaches at their respective locations.

1. Alibaug in November: 72 employees contributed total 8 hours. An approx. 450kg waste collected. (576 hours)
2. Uran Dec 16, 2018: 750 Kg of waste collected, 42 volunteers. (300 hours contributed)
3. Bhandup: Jan 2, 2019: 500 kg of waste, 16 volunteers (96 hours)
4. Badlapur: Jan: 24 volunteers contributed 158 hours. 300 KG collected. From Ulhas river and area around.

Ms. Priyanka from e-security team observed that an injured cat was roaming around e-security office. She took the cat to the veterinary clinic. Dr. Henna Ganjwala treated the cat and recommended medicines.

We are proud of Priyanka for this gesture and affection towards animals.
