

# GREEN INITIATIVE AT A GLANCE

## Green Fair

Fun and learning came together on 8th June, 2013 at the Trombay colony with the exciting new Green Fair launched by Greenolution. It was our endeavour to recognise our green heroes and invite participation from employees' families towards powering a greener world.

The event kickstarted with a flamboyant and educative fancy dress competition on the theme, Save Environment. Employees' children participated and did their bit of contribution in saving the environment. Following this, was an open house quiz competition on the theme reducing our carbon footprints. Employees and their families participated in it and the winners bagged some exciting prizes.

Mrs. Anurupa Homkar put on display and exotic array of handmade bags made out of waste products. She also explained the usefulness of each category of products and how they can be made at home with ease. Further enriching our audience were Mr. Abdul Salam and family who put on display a range of extremely useful and accessible range of homegrown medicinal plants. He explained their benefits and gave us tips to successfully grow them.

There was Mr. Homkar, who very innovatively showed the audience how to efficiently produce more light by using waste bottles as light holders. His father Mr. Homkar has also done his bit by having planted saplings in waste bottles that he had put on display.

Post this Mr. Sunil Bartakke took the audience for a visit to the Bio-mass plant located in the Trombay colony. He explained the functioning of the plants to the employees and their families. The event came to a successful closure with felicitation of Mr. Bartakke for giving his time, the families for their immensely informative and creative inputs and the prize distribution.

## Green Desk

# पर्यावरण

दिवसामागून दिवस जाती  
जंगले होत आहेत रिती (कमी)  
पर्यावरणाचा होणारा न्हास  
आम्ही उघड्या डोळ्यांनी  
बघतोय आज.

झाडे लावा झाडे जगवा  
पाणी अडवा पाणी जिरवा  
घोषणांचा पाऊस पडला  
प्रत्यक्षात पाण्याचा एकही  
थेंब जमिनीत नाही जिरला.

सिमेंटची जंगले उभारली  
नष्ट होत आहे हिरवाई  
पर्यावरणाचा समतोल बिघडवून  
का नष्ट होण्याची आपणास  
झाली आहे घाई?

नव्या युगाचा मंत्र जपून  
पर्यावरणाला देव मानूया  
सृष्टीतील चैतन्य राखण्यास  
आपण खारीचा वाटा उचलूया.

- संजीव

**Green Quotient**

**What's the biggest consumer of power in homes?**

- A:** Clothes dryer
- B:** Refrigerator
- C:** Iron
- D:** Hair dryer

**Which of the following countries has enacted legislation to curb the use of plastic shopping bags?**

- A:** Australia
- B:** Bangladesh
- C:** Italy
- D:** All of the above

**Which saves more energy: turning your computer off at night or putting it to sleep?**

- A:** Turning it off
- B:** Putting it in sleep mode

**True or false? Homes in rural areas have less indoor pollution than homes in highly industrial areas.**

- A:** True
- B:** False

**About how much CO<sub>2</sub> does a gallon of gasoline add to the atmosphere?**

- A:** 5 pounds (2.3 kilograms)
- B:** 20 pounds (9 kilograms)
- C:** 40 pounds (18 kilograms)
- D:** 100 pounds (45 kilograms)

**May Issue**

The winner for last issue of Green Quotient is  
**Ms. Ananya Mohanty**

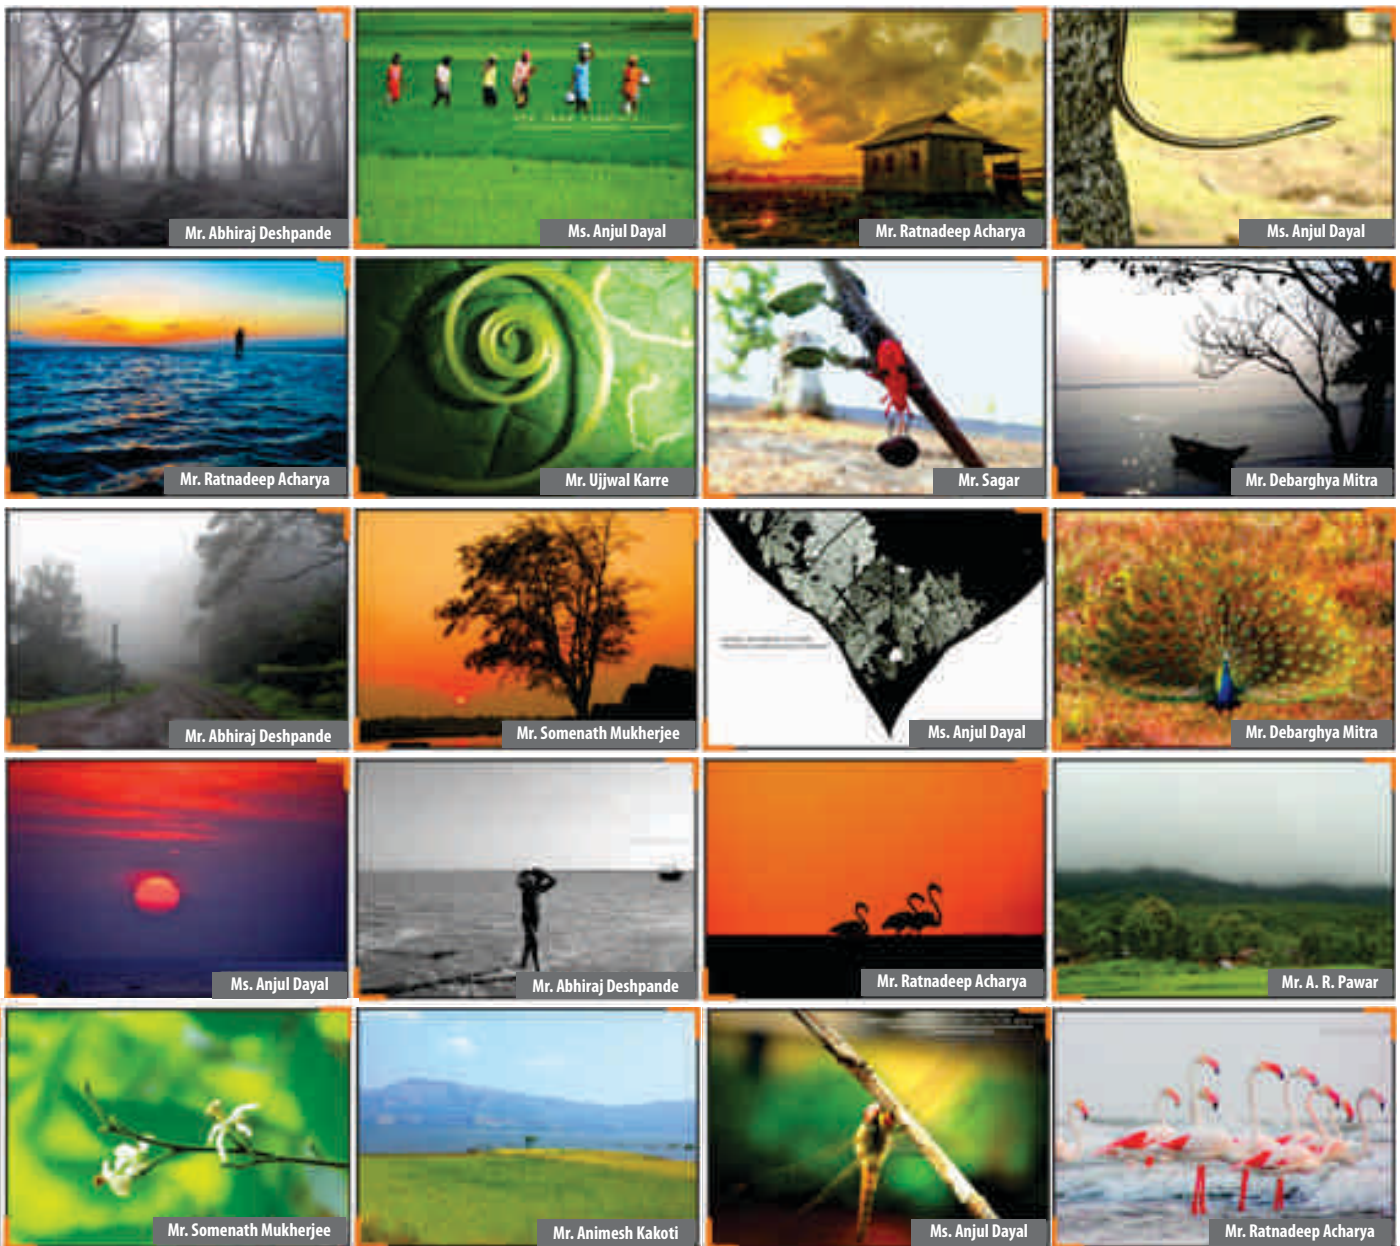

*Congratulations to our Winners!*

## Green Canvas

We have collated some of the best pictures that our employees have clicked on the occasion of the World Environment Day.

Congratulations to all!
